SUMMARY

Versatile software engineer with strong expertise in AI, software development, and automation. Adept at leveraging AI technologies to enhance productivity, automate workflows, and solve complex problems. Seeking software engineering roles focusing on AI-driven solutions and innovation.

EDUCATION

- Degree in Software Engineering | NIBM, Sri Lanka (Ongoing)
- G.C.E. Advanced Level (A/L) (2022/2023)
- G.C.E. Ordinary Level (O/L) (2019)

WORK EXPERIENCE

- Software Development Projects (Independent Developer)
 - Restaurant Website: Designed and deployed a responsive, interactive site improving customer engagement.
 - Car Rental Application: Developed a comprehensive system with booking functionality, vehicle tracking, and secure user authentication.
 - Estate Management Software: Created a custom platform streamlining daily operations, data management, and reporting.

CERTIFICATIONS

- Introduction to Artificial Intelligence (AI) | IBM, Coursera (April 2025) | [Verification](#)
- Developing AI Applications with Python and Flask | IBM, Coursera (April 2025) | [Verification](#)
- Introduction to Generative AI Learning Path | Google Cloud via Coursera (2025) [Verification](#)
 - Includes:
 - Introduction to Generative AI | [Verification](#)
 - Introduction to Large Language Models | [Verification](#)
 - Introduction to Responsible AI | [Verification](#)
 - Responsible AI: Applying AI Principles with Google Cloud | [Verification](#)

- Build a Computer Vision App with Azure Cognitive Services | Microsoft, Coursera (April 2025) | [Verification](#)
- Introduction to Data Analysis using Microsoft Excel | Coursera Project Network (April 2025) | [Verification](#)
- Build a Free Website with WordPress | Coursera Project Network (April 2025) | [Verification](#)
- Certificate in Programming | SUTD 42 Singapore (2023)
- Python Fundamentals | University of Colombo (2025) | CSC/PF/2025/GR_01/016
- Build a Two Screen Flutter Application | Google Cloud, Coursera (April 2025) | [Verification](#)
- Vulnerability Scanning with Nmap: Network Scanning | Coursera Project Network (April 2025) | [Verification](#)
- Getting Started in Google Analytics | Coursera Project Network (April 2025) | [Verification](#)

TECHNICAL SKILLS

- Programming: Python, C, C#, Java, C++, PHP, SQL, HTML
- AI & Automation: AI application development, workflow automation, machine learning
- Software & Tools: Microsoft Office, Adobe AE, Photoshop, Premiere Pro, Blender, Low-Code platforms
- Operating Systems: Linux, Windows, Mac

LANGUAGES

- English: Fluent
- Tamil: Native
- Sinhala: Conversational

EXTRACURRICULAR ACTIVITIES

- Robotics & AI: Developed innovative automation solutions, enhancing efficiency in personal and collaborative projects.
- PC Building & Optimization: Built customized PCs optimized for performance and specific user requirements.
- Cybersecurity: Engaged in ethical hacking practices and security protocol developments to strengthen system security.
- Gaming: Active in exploring latest gaming technologies and industry advancements.
